

How to Use See-See-See-It Cards

1. Look at the card and decide if the picture shows a dog only (figure A), or shows kids involved in activity with dogs (figure B).
2. If there is a dog (or dogs) only and no kids in the picture, then you must decide whether it would be safe for you (as a child) to approach the dog. Look at the symbols on the card to determine whether you have adult supervision or not, and whether you know the dog well or it is a strange dog.
3. If there are kids in the picture then you must decide if the activity in which they are engaged is safe or dangerous. The codes at the top of the card indicate whether they are supervised and whether they know the dog.

SAFE DOGS

DANGEROUS DOGS

Relaxed, paw tucked.

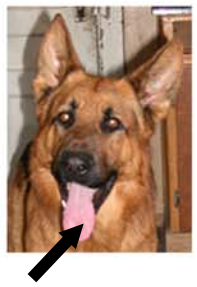

Relaxed, happy dog.

Mouth closed, intense, warning expression

Mouth closed, tail up, intense expression.

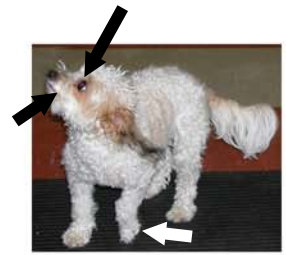

Panting, happy expression.

Mouth closed, intense stare.

Happy expression, relaxed body position.

Anxious look, paw lifted up.

Tied up, on guard.
